Hi Brent,

If you're swamped, I can contact the Senator's staff.

Jared –

I can put in a 7-day extension and will put in the request. I have been swamped with the Gold King Mine spill out of Colorado that is now impacting the Navajo Nation. I will try to reach out to get some clarity on the 18-mile stretch but may not get to it until tomorrow.

Hi Brent,

In addition to my last message, I need to request an extension. I got back this morning from vacation and will need time to coordinate with our other offices.

Thanks,

Jared

Importance: High

All –

The attached letter from Sen. John McCain, Sen. Jeff Flake, and Rep. Paul Gosar dated July 21, 2015 and written to Regional Administrator Jared Blumenfeld is requesting information regarding potential federal assistance with removal and replacement of salt cedar with native vegetation along an 18-mile stretch of the Gila River in southwestern Maricopa County. The Members have included in their letter four (4) questions that they would like EPA responses to. I have entered this into our Congressional Correspondence Management System (CMS) as a Regional Control (#R9-15-001-2382). If you believe that this incoming letter needs to be shared with other Program Offices, please let me know. I have created a Congressional yellow folder and will drop off at the desk of Jason Brush, Manager of our Wetlands Office. I have also attached the control information for this new incoming letter.

Due Date: Wednesday, August 19, 2015

Signature Level: Regional Administrator

Please share an electronic draft response before finalizing for comments and suggested revisions along with ensuring formatting requirements. Thanks.
